Re: Ex Parte Notice – WT Docket No. 12-70 (AWS-4)

Dear Ms. Dortch:

On September 4 and September 5, 2012, the undersigned representative of MetroPCS Communications, Inc. ("MetroPCS") had a series of separate telephone conversations with John Leibovitz of the Wireless Telecommunications Bureau, Gardner Foster of the International Bureau and Steve Spaeth of the General Counsel's office of the Federal Communications Commission. The purpose of the calls was to follow-up on MetroPCS' AWS-4 spectrum sharing proposal, and to register MetroPCS' concern that the technical capabilities of the DISH MSS satellites for AWS-4 deployments are not fully discernible from the publicly available technical information. MetroPCS indicated that it intends to ask DISH to provide to MetroPCS the technical information necessary for MetroPCS to complete an interference and spectrum sharing analysis. MetroPCS will consider asking the Commission to direct DISH to file the information in the record of this proceeding if the information is not voluntarily supplied in response to the MetroPCS request.

Kindly refer any questions in connection with this matter to the undersigned.

Sincerely,

Carl W. Northrop
